Register today for the Third Annual WEDI SNIP HIPAA Implementation Summit: Achieving 2003 Compliance. Join WEDI SNIP in Chicago, March 3-5, to hear and participate in discussions on the latest HIPAA implementation issues and implementation strategies. This two and one half day conference will give you the information you need to determine strategies for implementing HIPAA regulations in your organization. This event is designed for those of you who want to discuss strategies for implementation, want to learn from those who are well along in their implementation, and are seeking specific tools you can take back to your organization. Join WEDI, a consortium of industry leaders designated to serve as an advisor to the Secretary on the HIPAA regulations, as we all work together to plan and implement our HIPAA solutions.

The Third National WEDI SNIP HIPAA Implementation Summit: Achieving 2003 Compliance, will include multiple tracks, allowing the conference attendee to tailor his/her conference experience. Tracks include: Health Plan Perspective, Vendor Perspective, Provider Perspective, and Other Integral HIPAA Implementation Issues. Sessions will be highly interactive, allowing the attendees to further customize their conference experience. It is suggested that several members of your organization attend the event, so your company can take full advantage of the conference's diverse and compelling topics.

The conference will kick off with two pre-conference events: The WEDI Direct Data Entry (DDE) PAG, and a HIPAA 101 Workshop. These events will begin the morning of March 3. Attendees can register for either of these events using the attached registration form.

The regular Summit programming begins at 2:00 PM on March 3. More details, and the conference agenda will be posted to the WEDI SNIP Website at <http://www.wedi.org/snip/public/articles/index%7E0.htm> by January 17.
